

## Screening

Hearing Screenings - to identify hearing loss and to make appropriate audiological, medical, and/or educational referral to maximize hearing and learning potential.

Vision Screenings - for early identification of students with potential vision problems.

Students to be screened are:

- Kindergarten through 4th grade, then 6th, 8th, 10th, and 12th grade.
- Elementary students with an Individualized Education Plan.
- Students with a known vision problem or hearing loss.
- Parent or teacher request.
